

1 LISTING OF THE CLAIMS

2
3 **1-27. (Cancelled)**

4
5 **28. (Currently Amended)** A selective call forwarding system,
6 comprising:

7
8 (a) a telephone system configured to receive at least one
9 call made from one of a plurality of preferred caller telephone numbers to a
10 subscriber telephone number, and to selectively forward the call to a one of
11 a plurality of forwarding telephone numbers~~[[.]] wherein different ones of~~
12 ~~the forwarding telephone numbers are associated with respective caller~~
13 ~~telephone numbers and are also~~ associated with the subscriber telephone
14 number, wherein the plurality of preferred caller telephone numbers are
15 exclusively forwarded to one or more of the forwarding telephone numbers,
16 and wherein the telephone system is further configured to provide an
17 indication, to a caller placing the call, that the call is being forwarded to the
18 forwarding telephone number; and

19
20
21 (b) a programmable telephone number table containing at least
22 the subscriber telephone number, the plurality of forwarding telephone
23 numbers associated with the subscriber telephone number, and ~~associating~~
24 ~~therewith~~ the plurality of preferred caller telephone numbers, ~~and further~~

1 associating with different ones of the caller telephone numbers different
2 respective forwarding telephone numbers, and wherein the programmable
3 telephone number table is in communication with the telephone system and
4 can be edited by a user of the system via a website.

5
6 **29. (Previously Presented)** The system of claim 28 wherein the
7 website resides on the Internet.

8
9 **30. (Previously Presented)** The system of claim 28 wherein access to
10 the programmable telephone number table via the website is restricted.

11 **31. (Currently Amended)** A method comprising:
12
13 receiving a first call made to a subscriber telephone number from a first
14 caller telephone number;

15
16 determining whether the first caller telephone number is one of a plurality
17 of preferred caller telephone numbers associated with the subscriber telephone
18 number;

19 if the first caller telephone number is one of a plurality of preferred caller
20 telephone numbers, forwarding the first call to a first forwarding telephone
21 number ~~associated with the first caller telephone number~~ ;

22
23 if the first call is forwarded to a first forwarding telephone number,
24 providing an indication, to the first caller, that the first call is being forwarded to
25

1 the first forwarding telephone number;

2 receiving at least a second call made to the subscriber telephone number
3 from at least a second caller telephone number;

4
5 determining whether the second caller telephone number is one of the
6 plurality of preferred caller telephone numbers associated with the subscriber
7 telephone number;

8
9 if the second caller telephone number is one of a plurality of preferred
10 caller telephone numbers, forwarding the second call to a second forwarding
11 telephone number; associated with the second caller telephone number; and

12
13 if the second call is forwarded to a second forwarding telephone number,
14 providing an indication, to the second caller, that the second call is being
15 forwarded to the second forwarding telephone number[[]] ; and

16
17 wherein if the first caller telephone number is not a preferred caller
18 telephone number, the first call is processed normally without forwarding the first
19 call to the first forwarding telephone number;

20
21 and wherein if the second caller telephone number is not a preferred caller
22 telephone number, the second call is processed normally without forwarding the
23 second call to the second forwarding telephone number.

1 **32. (Previously Presented)** The method of claim 31, further
2 comprising determining whether the first forwarding telephone number is
3 associated with a wireless telephone, and wherein forwarding the first call to the
4 first forwarding telephone number is performed in response to determining that the
5 wireless telephone is in an on-state.
6

7
8 **33. (Currently Amended)** The method of claim 31, further comprising
9 associating the subscriber telephone number with a subscriber to a selective call
10 forwarding service, and further comprising enabling the subscriber to configure a
11 programmable telephone number table to:
12

13 associate a plurality of preferred caller telephone numbers with the
14 subscriber telephone number[[],]; and
15

16 associate with each of the preferred caller telephone numbers at least
17 one respective forwarding telephone number.
18

19 **34. (Currently Amended)** The method of claim 31, wherein
20 determining whether the first caller telephone number is one of a plurality of
21 preferred caller telephone numbers associated with the subscriber telephone
22 number includes accessing a programmable telephone number table containing at
23 least the subscriber telephone number and ~~associating therewith~~ the plurality of
24 preferred caller telephone numbers and determining if the first caller telephone
25

1 number is a preferred caller telephone number listed in the programmable
2 telephone number table. [[,]] ~~and further associating with each of the caller~~
3 ~~telephone numbers at least one respective forwarding telephone number.~~

4 **35. (Currently Amended)** The method of claim 31, wherein
5 determining whether the second caller telephone number is one of a plurality of
6 preferred caller telephone numbers associated with the subscriber telephone
7 number includes accessing a programmable telephone number table containing at
8 least the subscriber telephone number and ~~associating therewith~~ the plurality of
9 preferred caller telephone numbers and determining if the second caller telephone
10 number is a preferred caller telephone listed in the programmable telephone
11 number table. [[,]] ~~and further associating with each of the caller telephone~~
12 ~~numbers at least one respective forwarding telephone number.~~

13
14
15 **36. (Previously Presented)** The system of claim 28, wherein the
16 indication provided to the caller is an audible voice notification.
17

18 **37. (Previously Presented)** The system of claim 28, wherein the
19 indication provided to the caller is an audible tone.
20

21 **38. (Previously Presented)** The system of claim 28, wherein the
22 indication provided to the caller is a lamp.
23

24 **39. (Previously Presented)** The method of claim 31, wherein providing
25 an indication to the first caller includes providing an audible voice notification.

1 **40. (Previously Presented)** The method of claim 31, wherein providing
2 an indication to the first caller includes providing an audible tone.

3 **41. (Previously Presented)** The method of claim 31, wherein providing
4 an indication to the first caller includes providing the indication using a lamp.

5
6 **42. (Previously Presented)** The method of claim 39, wherein providing
7 an indication to the second caller includes providing an audible voice notification.

8
9 **43. (Previously Presented)** The method of claim 39, wherein providing
10 an indication to the second caller includes providing an audible tone.

11
12 **44. (Previously Presented)** The method of claim 39, wherein providing
13 an indication to the second caller includes providing the indication using a lamp.

14 **45. (New)** The method of claim 28, wherein different ones of the
15 forwarding telephone numbers are associated with respective preferred caller
16 telephone numbers and are also associated with the subscriber telephone number.

17
18 **46. (New)** The method of claim 28, further associating the plurality of
19 forwarding telephone numbers of the programmable telephone number table with
20 respective preferred caller telephone numbers.

21
22 **47. (New)** The method of claim 31, wherein forwarding the first call
23 includes forwarding the first call to a first forwarding telephone number associated
24 with the first caller telephone number.
25

1 **48. (New)** The method of claim 31, wherein forwarding the second call
2 includes forwarding the second call to a second forwarding telephone number
3 associated with the second caller telephone number.
